TYPE OF DETERMINATION: Preliminary ☐ Or Approved ☒ .

ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 – site conditions; paragraphs 2-3 – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite):

The site contains fallow upland pasture, upland woods, a maintained lawn, a perennial tributary with contiguous adjacent emergent wetlands, and one isolated emergent and scrub/shrub wetland.

The isolated wetland (0.6 acres) exists a minimum of 600 linear feet from the unnamed tributary located on the site, and along the parameter of upland maintained lawns located on adjacent properties. The wetland in question does not have any biological, chemical, or habitat relationships to the unnamed tributary, and therefore was not considered adjacent to the watercourse (neighboring.)

As noted, the wetland is non-navigable (heavily vegetated, and has no permanent ponding of water), and has no potential for Interstate or Foreign Commerce (cannot be used by interstate or foreign travelers for recreation or other purposes, no fish or shellfish could be taken and sold in Interstate or Foreign Commerce, and not used for industrial purposes in Interstate Commerce). Therefore, the wetland is an isolated, intrastate wetland with no nexus to interstate or foreign commerce. As such, the wetland is not a Waters of the United States, pursuant to 33 CFR Part 328.3, and not subject to Section 404 of the Clean Water Act.

See enclosure 1 (Jurisdictional Determination Checklist) for information concerning the Federally regulated waters and wetlands on the site.
